

PLEASE DISMISS The request By Leggett et al to Mandate field reparable type equipment for the amateur radio service. This ILL Thought out idea will drive most manufactuers out of the amateur radio market, and/or drive radio prices out of the reach of the average amateur radio operator. The F.C.C. Has much more important items to work on. Please DISMISS this one for what it is worth. LESS THAN NOTHING. Thank You, Ken Meyer, ARS K9KJM Sturgeon Bay, WI 54235
